“The pandemic has fueled the demand for key project management skills such as distributed leadership adaptability... Project management is a composite of many skills that are more diversified than a single profession. It takes the acquisition of many competencies to become a successful project manager.”

—Wayne R. Brantley, M.S. Ed, PMP

Professor at Wake Forest School of Professional Studies

President of 360 Degree Training Solutions

Program *OVERVIEW*

The MPM builds your expertise through a curriculum that blends leadership development and state-of-the-art technical knowledge with a strong practical focus. You can choose electives in areas such as construction and engineering. Develop management skills with ScrumMaster leadership preparation—or explore successful Lean Six Sigma project implementations across various industries.

Course Highlights

- Mastering the Project Life Cycle
- Portfolio and Project Management
- Negotiation and Conflict Management
- Leadership and Change Management
- AI and Data Analytics for Project Management

Length: 2 years
(go faster or slower
if you need to)

Tuition: \$38,940

Graduate *CERTIFICATE*

Project Management

This program teaches you the main concepts of project management and the important role project managers have in organizations. You'll understand the project management life cycle and best practices, develop leadership skills, and learn how to support teams in the process of organizational change. You'll also be introduced to Agile fundamentals and methodologies, such as Scrum, to help you manage dynamic projects.

Course Curriculum

- Project Management Essentials
- Mastering the Project Life Cycle
- Agile Fundamentals
- Leadership and Change Management

Length: 6 months
Tuition: \$15,576
